PROJECTS

Apple Screen Time: From passive tracking to proactive digital wellness - Bowdoin College

Fall 2025

- Proposed a comprehensive redesign of Apple's Screen Time features to improve efficacy as a digital wellness tool, grounded in UX research, behavioral design principles, and user-centered methodology
- <https://arcg.is/1KrfL3>

Ecology of Violence: How Weather Affects Crime in New York City - Bowdoin College

Fall 2024

- Built an interactive ArcGIS mapping project analyzing the relationship between weather, seasonal patterns, and violent crime rates to explore how ecological factors influence social behavior
- Integrated and cleaned geospatial and crime datasets; visualized temporal and environmental correlations
- <https://arcg.is/0TfeW00>

Personal portfolio: For more of my projects check out my personal website at seamuswoodruff.github.io

WORK EXPERIENCE

Weeping Willow Co, Falmouth, ME

May 2024 - Present

Co-founder

- Co-founded a small non-alcoholic cocktail brand currently selling in a variety of stores across Southern Maine.

Independent Land Management, Harpswell, ME

May 2025 - November 2025

- Managed forestry, landscaping, carpentry, and property maintenance operations across a 20-acre property
- Felled, processed, and milled trees into usable firewood and lumber using chainsaws, chippers, tractors, portable sawmills, and lifts

Crystal Spring Farm, Brunswick, ME

May 2024 - August 2024

Farm Operations Intern

- Worked directly with a 21-year veteran farmer and entrepreneur across all stages of product development, from harvest through processing, co-packing, labeling compliance, and distribution

NE Construction, Topsham, ME

May 2023 - August 2023

Carpenter's Assistant

- Executed framing, window installation, and demolition across residential construction projects

Gorham Bike and Ski, Brunswick, ME
